GRAFFITI: la nuova collezione dove la pietra incontra il colore.

I colori neutri della città fanno da sfondo a toni acidi e brillanti tipici della street art, la forza e il carattere di questo contrasto rivive nella nuova collezione Benetti che reinterpreta la pietra naturale in modo provocatorio.

Nella nuova collezione graffiti la pietra naturale incontra il colore e porta l'energia della città tra le pareti domestiche, così le textures Benetti come Raphia e Tartan si vestono di sfumature, trasformandosi in superfici contemporanee e ricche di personalità.

*GRAFFITI: the new collection where stone meets colour*

*The city's neutral colours are the background for street art typical bright acid tones. The strength and character of this contrast revive in this new Benetti collection, interpreting once again natural stone in a provocative way.*

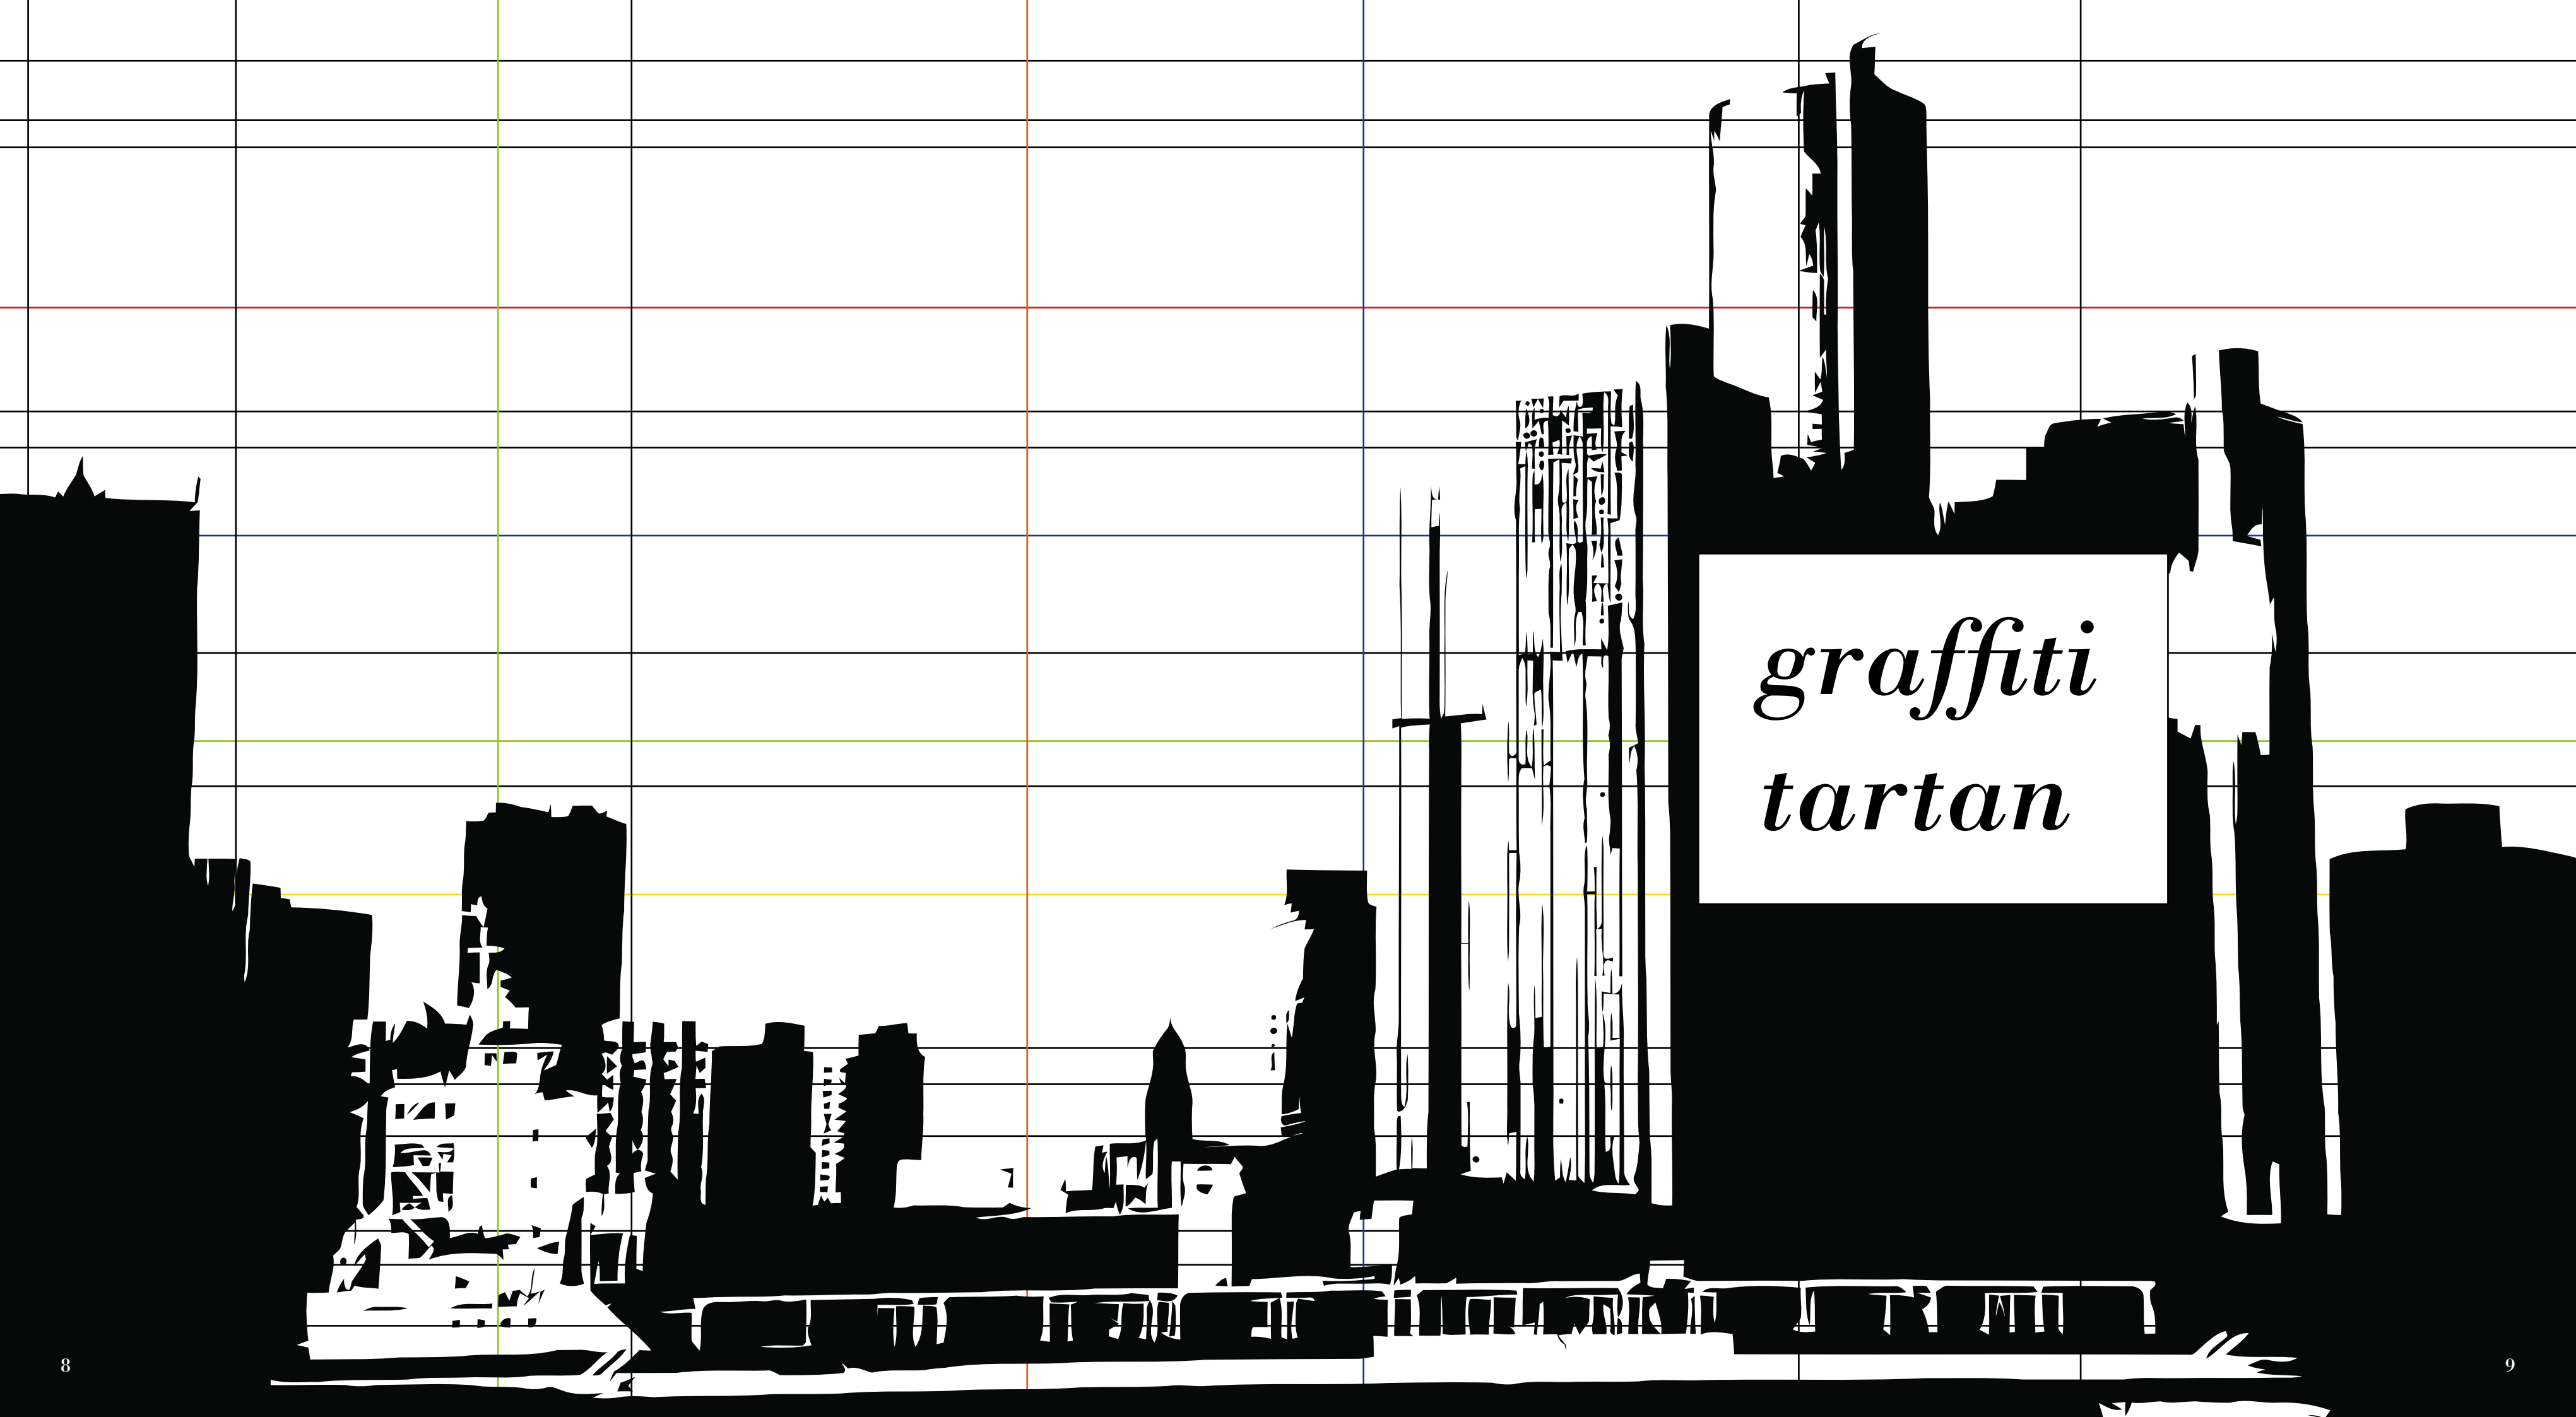

*In the new Graffiti collection, natural stone meets colour and brings in your home the energy of the city.*

*Benetti Raphia and Tartan textures are dressed with shades, becoming contemporary surfaces full of character.*
